

**SUTTON POYNTZ BIODIVERSITY
GROUP**

FORMING A COMMUNITY BIODIVERSITY GROUP

In July 2008, five residents in Sutton Poyntz asked the questions:

- What wildlife is found in the village?
- How do we document the data?
- How do we work with people to protect and enhance habitats for wild plants and animals?

Meet us in Osmington Village Hall
Saturday, 5th March 1.30p.m. - 4.00p.m.

An exhibition and presentation at 3.00p.m., will show what has been achieved and how we can help your village build on our experience.

Tea and Coffee will be available.
